

WOODS CREEK HOA

NEWSLETTER

Homeowners,

We want to provide you this update, a few times a year, to keep all in tune with the activities at Woods Creek. You can always reach out to the board if there is something you would like to have added to the next newsletter. Use the HOA portal for that communication and we will gladly assist.

REMINDER that as an HOA, we strive to continue the beauty of our neighborhood. Please do your part by keeping your landscape groomed and free of debris. It has been brought to our attention by a few realtors bringing potential new families in that their feedback highlights the “disappointment in the upkeep of several houses”. They sited screens torn and blowing in the wind as well as damaged fences and overgrown landscaping. I understand that the costs to repair screens and fencing can be extensive, but one suggestion for the screens is just to remove the damaged screen altogether. Fencing needs to be repaired and secure for everyone’s wellbeing. Thank you.

THE POND

The fountain will be removed soon. As a reminder, talk with your children about ice safety. The pond is not an ice rink and should not be walked on at all during the winter. We all need to be vigilant.

HOA BOARD UPDATE

2 positions on the board are up for renewal. If you are interested in working with our board, please attend the November Meeting!

Thank you to all, for your continued support of our neighborhood and the respect shown to all residents, in person and on social media. For any HOA business needs, please submit your request thru the HOA website and allow 5 business days for resolution.

2023 HOA Meeting Dates: Nov 8
